

PowerSchool Parent Portal Accounts

Golden Hills School Division uses PowerSchool to strengthen its communication between school and home. Using the Parent Portal, parents and guardians can access information regarding their child's grades, attendance and report cards. In order to meet Alberta Education guidelines, an Annual Demographic Verification form must be completed by the parent/guardian each year. A digital version of this form can be accessed through the Parent Portal.

Parents and guardians only need to create one Parent Portal account regardless of the number of children they have within Golden Hills School Division - meaning only one login to remember! Parents are able to add their kindergarten aged students and complete online registration forms for them through the portal.

The Parent Portal account follows each student as they move within the Division. There is no need to recreate an account when students progress to the next grade or school.

For more information about the PowerSchool Parent Portal or, if you require assistance in setting up your account, please contact your school directly.
